**CITY COUNCIL AND COUNTY COMMISSION**  
**JUNE 25, 2020, JOINT WORKSHOP**  
**DRAFT SUMMARY OF DISCUSSION**

**I. CALL TO ORDER**

The Joint Workshop was called to order on June 25, 2020, by Okeechobee Board of County Commissioners (BOCC) Chairperson Burroughs at 6:00 P.M. held at the Okeechobee County Historic Courthouse, Room 270, 304 Northwest 2nd Street, Okeechobee, Florida 34972.

Those in attendance were noted as follows: Mayor Dowling R. Watford, Jr., City Council Members Wes Abney, Monica Clark, Bob Jarriel, and Bobby Keefe (via telephone), County Commissioner Chair Terry Burroughs, County Commissioners Bryant Culpepper, Bradley Goodbread, Kelly Owens, and David Hazellief, City Clerk Lane Gamiotea, City Attorney John Fumero, City Administrator Marcos MontesDeOca, County Attorney Wade Vose, County Administrator Robbie Chartier, and County Deputy Clerk Jeff Shain.

**II. COMMENCEMENT**

The invocation was offered by Mayor Watford. The Pledge of Allegiance was led by Commissioner Goodbread.

**III. AGENDA**

Chair Burroughs yielded the floor to Mayor Watford, who provided a summary of the progress made at the task force meetings [the group consists of Mayor Watford, Chair Burroughs, City Attorney Fumero, County Attorney Vose, City Administrator MontesDeOca, and County Administrator Chartier]. The summary highlights, a copy of which has been attached to the official minute file, was also presented on a slide presentation. The joint recommendations for the fire service agreement are based on current services provided by the County. The City would pay the County to provide fire suppression, rescue operations, mass casualty, incident response, major disaster, and fire prevention services within the City.

The City desires to use the current County fire assessment rate as the basis for a fee calculation for the first year. The Council will need to decide to cover the cost and be included in the County's current fire assessment rate study. This will determine the true fire assessment rate for City properties. Any fees collected, such as inspection fees, will go to the City to offset costs. Equipment such as fire trucks, bunker gear, etc. will be provided to the County at no cost. The County will maintain vehicles at no charge to the City. The Council will also need to decide whether they will allow the County to store fire apparatuses at the existing City facility and for how long. The City desires to have a five-year agreement; the BOCC needs to officially make a decision on this. The method in how to track and evaluate the County's performance would be determined after applicable computer software has been implemented by the County. County staff is currently researching the various types of software available to provide these reports.

The City will determine whether they will pay for transferred firefighters to attend Paramedic school. The County has proposed taking seven City fire personnel (six Paramedics and one Inspector). The Council wants all employees protected so the County will be deciding whether they will take all City fire personnel and use them as attrition presents itself. The Council will have to address paying for the additional employees until attrition takes place. City Pension Options: employee could stay in City pension plan or choose to enroll in County plan. The process to handle salary, vacation/sick accruals/current balances are being negotiated by both Administrators.

The Fire Union will have to agree to the proposal (Interlocal Agreement) to complete the process as an amendment to the current contract, specifically on the topics of seniority, rank and probationary periods. In conclusion, Mayor Watford noted he would be remiss in his duty to the City Council by not sharing the discussion of requiring a dual referendum by the task force. Each entity's Attorney will need to provide their individual legal opinion on how to handle the issue.

Chair Burroughs opened the floor for comments. Commissioner Culpepper stated the decision should go to a referendum since it is up to the voters to decide this. He was concerned with increases to residential property insurance premiums stating the lower income range residents will be affected greatly. Then countered, when commercial tax rates are lowered, it helps the commercial property owners. He asked for all to stop and think about how many people will be affected the most by having to pay more. In conclusion, he questioned what the people were going to end up with.

Council Member Abney asked for clarification on how certain fees will be remitted to the City to offset costs of services rendered. Chair Burroughs confirmed the intent is for the County to collect the fees and reimburse the City for inspections and so forth. Council Member Jarriel asked what the time limit would be for the County to store fire apparatuses in the existing City facility. Mayor Watford responded, the Council will have to make that decision, as well as other options such as housing the County fire personnel. The assumption is the building would be utilized until the County can build a new facility.

Commissioner Hazellief did not want to address the specific issue of a five-year agreement when asked by Council Member Jarriel, stating only the highlights should be discussed. Commissioner Goodbread noted his two main issues are: no City resident gets hurt and the services do not fall on the County to fund.

**Discussion ensued until it was confirmed there were several issues needing to be addressed by each entity. From those decisions, costs would be further refined and provided at a future workshop.**

#### IV. PUBLIC COMMENT

City Fire Chief Herb Smith asked several questions related to replacing equipment, implementing a fire assessment, and how confusing the discussions are since the two departments operate on many different scopes. When the proposed changes are made, those differences can impact City residents more than what is realized. Another issue the Council will have to address is whether it is better to implement a fire assessment in the City to cover the cost of paying the County for the fire services, or continue to use the current millage rate. He continued, several are in favor of combining these services on the concept it will save the City taxpayers money. Those same individuals have also implied the Council could use the savings to beautify the City. He questioned the savings as the dollars used to fund his Department would be split between paying the County for fire services and City beautification costs.

City Fire Captain Lalo Rodriguez stated he would like to see the final numbers. He then asked “why should either entity stop at combining fire services, this is supposed to be about money back in our pockets, then one government is the best method, why even keep the City?”

Mr. Wes Williamson commented he understood this is a tough decision. The Economic Council’s mission statement is “to create an environment that promotes prudent economic growth and improves the quality of life in Okeechobee.” He noted his appreciation for allowing public comment each time this issue is discussed, and then recited the issues the Economic Council has outlined on a flyer to provide what they believe to be an estimated savings of \$600,000.00 per year for the City. These savings can be used to reduce taxes or whatever else the elected body decides. The issue for the Economic Council was to reduce redundancy, as this was not a good use of taxpayer’s money. He urged the officials to move forward with the contract, and concluded by addressing the topic of requiring a referendum vote by the people. It is his opinion a referendum was not necessary since the Council and Commissioners were elected to make these decisions.

Mr. Josh Borgstrom, Firefighters’ Union Representative, stated the Union is willing to negotiate to help the City Firefighters.

Mr. Noel Chandler (former City Council Member and Commissioner) noted his concern for every City Firefighter. He has always been an advocate for the employees and challenged the Council and Commissioners to take care of them.

Ms. Karyne Brass stated her opposition to contracting the fire services and strongly urged to keep the services at the City. She asked whether the Council and Commissioners were aware they will be known as the officials who began the disassembling of the City? She provided an example of the average amount a homeowner would save on their property taxes, approximately \$50.00 per year, and could not fathom taking away a valuable service for such a small savings. She noted the Economic Council's position has switched gears from a savings to the City to a new methodology, redundancy. It is being presented as the City is at fault. However, this can be remedied without giving up the Fire Department by allowing them to provide their own ambulance services. She continued, the Economic Council's major component makes sense. They have very few City residents as members. Combining the departments is for the sole purpose of benefiting businesses, not the residents.

Mr. Mack "Hoot" Worley, Director of the Economic Council, stated the Economic Council has no other motivation than to make it more economical for all. Every City resident is a member of the County as well. Should the Council decide not to get rid of the Fire Department, then they should budget the Department to be the same amount they would pay the County.

Captain Rodriguez questioned whether churches were going to be assessed in the City since the option of adopting a fire assessment was being considered, as they are assessed in the County. The Council is also in the process of appointing a committee to review the City Charter. The Charter does not have to be amended to abolish the Fire Department, but would have to in order to abolish the Police Department. He stated "when looking at saving taxpayers money or removing duplicated services by getting rid of a City Department, where does it stop? Is the Police Department next and is this why the issue of rewriting the Charter is being addressed at this time?" He repeated his previous statement in doing away with the City, "let everyone pay the County millage rate (8 mills) so everyone keeps their jobs."

Ms. Sandra Pearce stated she loves the City Fire Department, and thanked them for what they do. She does not want to see anyone lose their jobs. However, she has lived in the same place in the City and has paid two taxes for 51 years. She agreed with Captain Rodriguez's statement to have only one government.

Commissioner Owens offered she was in the same position as Mayor Watford in not supporting the combination of the fire services. Based on information and research she has firsthand knowledge of, it is unlikely there is going to be a savings in this. She reached out to a long-time Fire Chief in another County. He made it clear this has to be a win-win for the taxpayers, employees, City, and County or it is not worth doing. To get there will be a large accomplishment, as she did not believe they were there, but hoped they would get there in the end should it continue moving forward. Council Member Abney stated he has never been for or against this, and wants to see what savings it could bring. Should it end up being a win-win for everyone, then he will be for it; it has to be clear that it is best for everyone, staff, firefighters, and taxpayers. Chair Burroughs said in closing, the objective is to do something right for the taxpayers, and for both the City and County employees. He appreciated everyone who attended. This will have to be a team effort to get done.

## **V. ADJOURNMENT**

There being no further discussion, the Workshop was adjourned at 7:30 P.M.

**Council Member Clark moved to adopt proposed Ordinance No. 1213; seconded by Council Member Keefe.**

Mayor Watford asked the Council to disclose any ex-parte communication. Attorney Fumero elaborated this is a quasi-judicial item requiring the disclosure of any discussion, correspondence, or independent effort to view the property. Council Member Clark disclosed she had a discussion with the applicant's real estate agent Mr. Jim Fowler, and with Planning Board Members Dawn Hoover and Rick Chartier. Mayor Watford, Council Members Abney and Jarriel disclosed they had conversations with the applicant's agent, Mr. Steve Dobbs. Council Member Keefe disclosed he had a conversation with Mr. Dobbs, researched information on the property, and met with the property owner at the site.

The Planning Staff and Planning Board recommend denial based on the following Staff findings: the Applicant currently owns and operates a 1.6-acre industrial site to the North of the subject parcel, which is one of only a few industrial properties South of South Park Street in the City.

PUBLIC HEARING ITEM B CONTINUED: The current surrounding FLU designations are IND to the North, SFR to the East, and MFR to the South and West. The surrounding zoning districts are IND to the North, and Residential Multiple Family (RMF) to the East, South and West. The existing surrounding uses are an industrial manufacturing plant to the North; single family homes and vacant property to the East; a childcare facility to the South; vacant property and a proposed apartment complex to the West. Plans have been submitted for future development of a residential apartment complex to be known as Emerald Greens

Approval of the request is not likely to create a density pattern that will overburden facilities. The proposed use will not impact traffic congestion as this is already a heavily traveled street with adequate capacity for additional traffic. Drainage issues would be considered at time of site plan review. The proposed use has not been inordinately burdened by any unnecessary restrictions.

There were 16 surrounding property owners notified, two signs were posted on the property, the proposed Ordinance was properly advertised in the local newspaper, and one objection has been received to date by Mrs. Linda Knisely of 601 Southwest 4<sup>th</sup> Street

At the June 16, 2020, meeting Comprehensive FLUM Amendment No. 20-002-SSA was adopted by Ordinance No. 1213 amending the FLU to IND. The Council noted their findings for overturning the Planning Board's recommendation as follows: **the Petition was found to be consistent and compatible with the Comprehensive Plan as it does not increase density, it protects the uses and values of adjacent properties, there are adequate public facilities to serve the proposed use, and there are no environmental impacts.**

**VOTE: Ayes-Council Members Abney, Clark, Jarriel, and Keefe. Nays-Mayor Watford. Motion Carried.**

- C. **A motion was made by Council Member Jarriel and seconded by Council Member Keefe to read proposed Ordinance No. 1214 by title only, regarding Rezoning Petition No. 20-002-R submitted by the property owner Best Value Real Estate, LLC, to rezone approximately 0.50 acres located at 204 East South Park ST, from RMF to Central Business District (CBD) [as provided in Exhibit 5; Legal Description: CITY OF OKEECHOBEE beginning at the Northeast (NE) corner of Lot 2, Block 171, TOWN OF OKEECHOBEE, PB 5, PG 5, public records of Okeechobee County, FL, and run South along the East line of Lot 2, aforesaid a distance of 142.50-FT. Thence West parallel to South Park ST to the intersection of the West line of Lot 3, Block 171 extended South; thence North along said extended West line a distance of 142.50-FT to the South boundary of South Park ST; thence East along the South boundary of South Park ST to the POB. Said lands also described as follows: Lots 2 and 3, Block 171, TOWN OF OKEECHOBEE, PB 5, PG 5, public records of Okeechobee County, FL, also that part of North Curve ST and part of the former but now abandoned FL East Coast Railroad ROW as shown on Plat of FIRST ADDITION TO TOWN OF OKEECHOBEE, recorded in PB 3, PG 26, public records of St. Lucie County, FL, lying South of and adjacent to said Lots 2 and 3, together with Lot 4, Block 171, TOWN OF OKEECHOBEE, PB 5, PG 5, public records of Okeechobee County, FL. Also that part of North Curve ST as shown on Plat of FIRST ADDITION TO TOWN OF OKEECHOBEE, recorded in PB 3, PG 26, public records of St. Lucie County, FL, lying South of and adjacent to said Lot 4, and lying North of the following described line: commence at the NE corner of Lot 2 of said Block 171; thence South 00°01'50" West, a distance of 142.50-FT; thence South 90°00'00" West, a distance of 100.00-FT to the Southerly extension of the East line of said Lot 4 and the POB; thence continue South 90°00'00" West, a distance of 34.64-FT to the Point of Terminus].**

**VOTE: Ayes-Mayor Watford, Council Members Abney, Clark, Jarriel, and Keefe. Nays-none. Motion Carried.**

Attorney Fumero read proposed Ordinance No. 1214 by title only as follows: **"AN ORDINANCE OF THE CITY OF OKEECHOBEE, FL; AMENDING THE OFFICIAL ZONING MAP OF THE CITY OF OKEECHOBEE BY REZONING A CERTAIN TRACT OF LAND MORE PARTICULARLY DESCRIBED HEREIN, FROM RMF TO CBD (PETITION NO. 20-002-R); AMENDING THE ZONING MAP ACCORDINGLY; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE."**

**PUBLIC HEARING ITEM C CONTINUED: A motion to adopt proposed Ordinance No. 1214 was made by Council Member Clark and seconded by Council Member Jarriel.**

Mayor Watford asked the Council to disclose any ex-parte communication; there were no disclosures made. He also opened the floor for public comment; there was none.

Planning Staff findings are as follows: The current zoning of RMF is not appropriate for the Commercial FLU designation. However, Policy 2.2 of the FLU element specifically lists the CBD Zoning district as appropriate in the Commercial FLU. Medical office is specifically listed as a permitted use in the CBD Zoning District. The proposed use has been providing medical services to the community for many years and does not have an adverse impact on the public interest. The subject property is separated one block from East North Park Street (State Road 70 East), a municipal park area and is within the business area of downtown Okeechobee. The property to the immediate North of the subject parcels is designated Public Facilities on the FLUM and zoned Public Facilities with the use being that of a park. The property to the East is designated Commercial on the FLUM and zoned CBD with the use being that of the Visiting Nurse Association. The property to the South is designated Commercial on the FLUM and zoned Commercial Professional Office (CPO) with the use being The Grand Oaks Assisted Living Facility. The property to the West is designated Commercial on the FLUM and zoned CBD and Light Commercial (CLT) with the parcels being occupied by a retail strip center. No adverse effects are expected with the continued medical office use. The proposed medical use should not cause any nuisances or hazards that would require buffering from the adjacent land uses. The applicant is not proposing any changes in the current use that would increase demand for public utilities or public safety. The proposed use has not been inordinately burdened by unnecessary restrictions.

There were 14 surrounding property owners notified, two signs were posted on the property, the proposed Ordinance was properly advertised in the local newspaper, and no objections or correspondences have been received to date.

**VOTE: Ayes-Mayor Watford, Council Members Abney, Clark, Jarriel, and Keefe. Nays-none. Motion Carried.**

**MAYOR WATFORD CLOSED THE PUBLIC HEARING AT 6:33 P.M.**

**VII. NEW BUSINESS**

- A.** An update was provided on COVID-19 by Mrs. Tiffany Collins, Administrator of the Okeechobee County Florida Department of Health (DOH). The State of Florida is currently still in Phase 2 as issued by Executive Order No. 20-139. The Centers for Disease Control (CDC) and DOH continue to encourage social distancing, large social gathering limitations, and hand washing. The primary focus of the DOH is to continue contact tracing investigations, and prioritize testing individuals considered to be high-risk such as those hospitalized, health care workers, first responders, long term care facility residents or employees, congregate settings, correctional and juvenile facilities, homeless shelters, individuals with symptoms who are over the age of 65, have a severe disease, or who are pregnant. The DOH created a self-investigation tool that explains what steps individuals should take when testing positive for COVID-19.

There have been approximately 55,000 masks distributed to over 70,000 agencies and businesses in Okeechobee County, with approximately 12,000 more to distribute. Should an agency like to be included as a distribution point, contact Mr. Todd Hardacre at 863-462-5805 to set up a time for delivery. The testing sites available in Okeechobee County are: CVS Pharmacy through the drive-thru; the Florida Community Health Centers, and Treasure Coast Medical Association (TCMA) Urgent Care Clinic. The DOH is offering free high-risk testing.

NEW BUSINESS ITEM A CONTINUED: On July 1, 2020, the DOH received \$139,000,000.00 at the State level in CARES dollars to fund ongoing operations, and to contract positions such as Licenses Practical Nurses and Contact Tracers. Mrs. Collins has requested volunteers from the community to assist in the call center, as there has been a considerable increase in daily calls. The Call Center will have to be closed should a consistent volunteer schedule not be fulfilled. For those interested in volunteering, the schedule is Monday through Friday from 8:00 A.M. to 5:00 P.M. On July 6, 2020, the DOH Incident Management Team from Region 6 out of Charlotte County came on-site at the Okeechobee Health Care Facility and the TrueCore Department of Juvenile Justice Facility to perform testing on residents, employees, and some family members, due to an increase of exposure to COVID-19. Once the results are received, the DOH will move forward with isolation protocols, if necessary. The DOH has also been aware of individuals having COVID-19 quarantine parties with the purpose of exposing individuals to those who have tested positive.

As of today, Okeechobee County has 451 confirmed cases of COVID-19 ranging in age from zero to 93 years old, has tested 4,106 individuals resulting in a 10.8 percent positivity rate, and has no deaths. The State of Florida has over 213,794 confirmed positive cases with over 16,000 hospitalized and over 3,800 deaths, calculating an overall death rate of 1.82 percent. Florida is currently the ranked number three in the United States in positive cases, behind New York and California. There have been 149 anti-body testing administered in Okeechobee, with five confirmed positive cases resulting in a 3.3 percent positivity rate. It was explained that research has shown there is a high false negativity rate for antibody testing, meaning of those 149 tested there could be more positive results. Mayor Watford and Council Member Clark questioned the protocol for testing individuals who believe they have been exposed to COVID-19. Mrs. Collins explained that due to back-ups in labs, and the shortage of staff, the DOH is currently only testing symptomatic individuals. It is currently taking approximately eight to 11 days to get tests results back. Council Member Abney asked whether the number tested reflects those tested at blood banks. Mrs. Collis explained antigen testing performed at blood banks is included, anti-body testing is not. The Council thanked Mrs. Collins for the update. No official action was required.

- B. Ms. Kathy Scott, Vice Director of Okeechobee Main Street (OKMS) Arts & Cultural Alliance Committee explained the goal to install the Cattle Drive Sculpture Project is in 2021. She made a request to place "Future Home Of" signs in Park No. 5 (Park L, of FLAGLER PARK) to bring community awareness of the Project and its placement as it continues to move forward. One sign will face West North Park Street (State Road 70 West) and the other towards West South Park Street. The signs will be constructed to withstand the elements and aesthetically pleasing to the Park landscape. She then distributed a copy of the conceptual layout and wording of the signs, which included the type of construction material and location. Donations for the project can be made online or at OKMS' office. Mayor Watford read a letter of support submitted by Mrs. Jennifer Tewksbury, Executive Director of the Economic Council of Okeechobee (ECOK), as follows: "The ECOK fully supports Okeechobee Main Street's Arts and Cultural Alliance's request to install temporary signage in Downtown Flagler Park No. 5 to continue fundraising and gathering community support for the Cattle Drive Sculpture Project. This art installation Main Street has taken the lead on will contribute greatly to our downtown area and will be an impressive attraction to draw visitors to the City."

**A Motion was made by Council Member Jarriel to approve a request by OKMS to install two 4-foot by 8-foot signs in Park No.5 [PARK L of FLAGLER PARK, TOWN OF OKEECHOBEE, Plat Book 1, Page 10 Okeechobee County public records] for the Cattle Drive Sculpture Project for approximately one year and waive any applicable sign permit fees [as provided in Exhibit 6]; seconded by Council Member Keefe.**

**VOTE: Ayes-Mayor Watford, Council Members Abney, Clark, Jarriel, and Keefe. Nays-none. Motion Carried.**

- C. **A motion was made by Council Member Clark to rescind the designation of Fire Engine 5 as surplus and its donation to St. James-Lanark Volunteer Fire Department and transfer the Engine to the Public Works Department to replace the T-2 water truck [as provided in Exhibit 7]; seconded by Council Member Keefe.**

**VOTE: Ayes-Mayor Watford, Council Members Abney, Clark, Jarriel, and Keefe. Nays-none. Motion Carried.**

- D. **A motion was made by Council Member Abney to approve the renewal of Public Risk Management (PRM), Inc., Group Health Trust for the Health Insurance Policy Plan No. PPO 0727 (Blue Cross/Blue Shield) [as provided in Exhibit 8]; seconded by Council Member Clark.**

A memorandum submitted by Finance Director Riedel explained the City's claim experience has significantly improved from the prior three to five years, with no large medical claims during the current policy year (i.e. \$150,000 or more). The PRM Group has an overall increase of 5.5 percent, but the application of the City's claims experience rating resulted in a 4.5 percent increase. Based on the number of employees, the fiscal impact equates to \$31,695.84 overall increase in premiums for the renewal. The City is continuing to take a long term approach regarding the health of its employees by continuing the current benefits including the Clinic. The current Blue Cross/Blue Shield Plan 0727 premium will increase for employee only coverage from \$850.70 to \$888.98, employee and spouse from \$2,123.81 to \$2,183.86, employee and child(ren) from \$1,698.25 to \$1,750.94, and employee and family from \$2,708.95 to \$2,830.85.

**VOTE: Ayes-Mayor Watford, Council Members Abney, Clark, Jarriel, and Keefe. Nays-none. Motion Carried.**

- E. **A motion was made by Council Member Clark to approve Addendum No. 3 to the Contract for medical services with TCMA [as provided in Exhibit 9]; seconded by Council Member Abney.**

This is a two-year extension to the existing piggyback contract with Okeechobee County, billed monthly in the amount of \$2,571.00, plus lab fees and medication costs billed quarterly at cost. Representatives of TCMA were in attendance via Zoom.com for questions.

**VOTE: Ayes-Mayor Watford, Council Members Abney, Clark, Jarriel, and Keefe. Nays-none. Motion Carried.**

- F. Council Member Clark requested this item be placed on this agenda to compare to the information provided by the County for the proposed Interlocal Agreement (ILA) for Fire Services. Administrator MontesDeOca explained the content included within Exhibit 10 provided detailed data received from the County to aid in calculating projected revenues from Emergency Medical Services (EMS) in the City. The personnel and supplies costs to provide both EMS and Fire Services is estimated to increase the current budget by \$226,843.00.

The County provided detailed call breakdowns, gross earnings and the sources of revenue for the individual years of 2017 to 2019. It also included the average Medicaid and Medicare payments for transports, as well as the breakdown of payees by percentages. A draft of the capital improvement expenditures provided for two E-450 Ambulances, Lifepaks, Equipment, miscellaneous items, and radios totaling \$395,000.00.

Based on the projections analyzed in detail, Administrator MontesDeOca and Finance Director Riedel found the City could see a savings and further provided how the millage rate could be reduced by approximately 1.6268 mills.

Council Member Jarriel was of the opinion that this discussion was premature. Council Member Abney had questions but will meet with the Administrator and Finance Director to discuss them. **No action was taken on this item.**

- G.** The City and County held a Joint Workshop on June 25, 2020, to discuss items of negotiation for the draft of an ILA for Fire Services provided by the County to the City. The direction given at the Workshop was there were multiple issues to address by each entity before costs could be further refined. Prior to discussing the information provided in Exhibit 11, Mayor Watford read a letter received from the ECOK into the record as follows: "The ECOK continues to support a contract for fire rescue services between the City of Okeechobee and Okeechobee County. As stated by Ms. Tori Fatjo, IAFF District 12 Representative at the May 19, 2020 City Council meeting, many other municipalities have recognized the long-term economic benefits provided by an interlocal agreement of this nature. Our small, fiscally constrained community cannot continue to ignore the cost advantages and increased efficiencies available to us through basic economics of scale. The proposed alternative to instead implement EMS Services in the City is inherently the direct opposite of this widely understood economic principle. Thank you for continuing to engage in this discussion and for being transparent to the public in your decision-making."

**The consensus of the Council was to participate in the County Fire Assessment Study being performed by Stantec, which will cost an estimated \$8,750.00.**

The County originally proposed to utilize City Fire Station One for equipment and vehicle storage. They are now requesting to utilize the Station to run calls for unknown period of time. After a brief discussion, **the consensus of the Council was to allow the County to use the building with the Administrator negotiating the length of time and reimbursement of costs.**

There was a brief discussion on the City paying for employees who are not Paramedics. **It was clarified and agreed the City will cover up to 10 Paramedic certifications.**

**The consensus of the Council was to cover the salaries and benefits of the additional personnel transferring to the County in excess of the seven positions needed until attrition takes place.**

The discussion then turned to the potential buy-out of employees who have entered the Deferred Retirement Option Plan. As this is a complicated matter, it was suggested that the Administrator continue to research options and the employees' interest. Additional discussion is needed with the Pension Attorney to obtain the options that are allowed to be offered to vested and non-vested members.

Council Member Clark questioned the difference in pay for City employees transferring to the County. It is her opinion that employees should be transferred making the same rate of pay, with an increase given upon receipt of their Paramedic certification. Mayor Watford explained salary negotiations is part of the Union, for which the County will have to determine whether they are willing to open negotiations to address the salary discrepancies. Administrator MontesDeOca was instructed to gather more information on this.

Attorney Fumero provided a brief overview of the legal/procedural options available to effectuate the transfer of fire services to Okeechobee County. Florida's constitution provides that transfer of functions to another local government may occur after approval by vote of the electors of both local governments, or as otherwise provided by law. Florida Statutes allows a county to merge services such as fire protection subject to consent by ordinance of the affected municipality authorizing an interlocal agreement in reliance on municipal home rule powers as well as Florida Statutes sections 166.021 and 125.01(q). It was his legal opinion that there was no legal risk with a dual referendum, as an interlocal agreement can be challenged in court. After a brief discussion, **the consensus of the Council was to continue negotiations of an ILA.**

NEW BUSINESS ITEM G CONTINUED: Mayor Watford opened the floor for public comments. Mr. Noel Chandler addressed the Council by explaining he had researched the last time the City wanted to the County to provide Fire services, which was in 1987. The County was presented with 44 articles to read, and decided it would not be fiscally responsible to provide these services. He continued by replying to a comment previously made regarding redundancy, as it his opinion that was caused by OSHA regulations. The City or County could not comply as individual agencies, so a mutual aid agreement was generated. He is also researching when the County imposed taxing City residents. Lastly, he explained when the item of implementing EMS services was presented in the past, the City did not have the resources to draw from. The demographics are different now. The City has invested in training the personnel, so utilize the assets on hand.

The Commissioners will be discussing their items from the Workshop on July 9, 2020. The two Administrators will then begin working on costs to present at a second Joint Workshop.

**VIII. COUNCIL COMMENTS**

Council Member Jarriel congratulated Council Member Abney on his engagement, and Attorney Fumero on his appointment to the Board of the Palm Beach County Food Bank.

**IX.** There being no further items on the agenda, Mayor Watford adjourned the meeting at 8:18 P.M. The next regular meeting is scheduled for July 21, 2020, at 6:00 P.M.

**Complete and submit this form DR-420MM-P, Maximum Millage Levy Calculation-Preliminary Disclosure, to your property appraiser with the form DR-420, Certification of Taxable Value.**

**MAXIMUM MILLAGE LEVY CALCULATION  
PRELIMINARY DISCLOSURE  
INSTRUCTIONS**

**General Instructions**

Each of the following taxing authorities must complete a DR-420MM-P.

- County
- Municipality
- Special district dependent to a county or municipality
- County MSTU
- Independent special district, including water management districts
- Water management district basin

Voting requirements for millages adopted by a two-thirds or a unanimous vote are based on the full membership of the governing body, not on the number of members present at the time of the vote.

This form calculates the maximum tax levy for 2019 allowed under s. 200.065(5), F.S. Counties and municipalities, including dependent special districts and MSTUs, which adopt a tax levy at the final hearing higher than allowed under s. 200.065, F.S., may be subject to the loss of their half-cent sales tax distribution.

DR-420MM-P shows the preliminary maximum millages and taxes levied based on your proposed adoption vote. Each taxing authority must complete, sign, and submit this form to their property appraiser with their completed DR-420, Certification of Taxable Value.

The vote at the final hearing and the resulting maximum may change. After the final hearing, each taxing authority will file a final Form DR-420MM, Maximum Millage Levy Calculation Final Disclosure, with Form DR-487, Certification of Compliance, with the Department of Revenue.

Specific tax year references in this form are updated each year by the Department.

**Line Instructions**

**Lines 5-10**

Only taxing authorities that levied a 2018 millage rate less than their maximum majority vote rate must complete these lines. The adjusted rolled-back rate on Line 10 is the rate that would have been levied if the maximum vote rate for 2018 had been adopted. If these lines are completed, enter the adjusted rate on Line 11.

**Line 12**

This line is entered by the Department of Revenue. The same adjustment factor is used statewide by all taxing authorities. It is based on the change in per capita Florida personal income (s. 200.001(8)(i), F.S.), which Florida Law requires the Office of Economic and Demographic Research to report each year.

**Lines 13 and 14**

Millage rates are the maximum that could be levied with a majority or two-thirds vote of the full membership of the governing body. With a unanimous vote of the full membership (three-fourths vote of the full membership if the governing body has nine or more members) or a referendum, the maximum millage rate that can be levied is the taxing authority's statutory or constitutional cap.

**Line 16**

Check the box for the minimum vote necessary at the final hearing to levy your adopted millage rate.

**Line 17**

Enter the millage rate indicated by the box checked in Line 16. If the proposed millage rate is equal to or less than the majority vote maximum millage rate, enter the majority vote maximum. If a two-thirds vote, a unanimous vote, or a referendum is required, enter the proposed millage rate. For a millage requiring more than a majority vote, the proposed millage rate must be entered on Line 17, rather than the maximum rate, so that the comparisons on Lines 21 through 25 are accurate.

## Memorandum

Date: July 13, 2020  
To: Mayor Watford and City Council  
From: City Administrator Marcos Montes De Oca, P.E.  
RE: **Synopsis from July 9<sup>th</sup> BOCC meeting**

Council, please find the general synopsis of County Commission Meeting held July 9<sup>th</sup> regarding Fire Services.

Should you have any questions, as some items do require some additional discussion and require interpretation, please advise. The information below was the main points on the discussion. Link is on the county website.

### Key Points

- Initial offer to stand to be \$678K for the first year, not the assessment rate; secondary years I was not able to interpret from the meeting but would be utilized to ensure continuity and ability to use the assessment when the updated study is completed.
- Appears subsequent years the potential new assessment would be the rate once completed.
- City station would be utilized as necessary, and house equipment until other county options become available (potentially two minimum years).
- Date for beginning operations would be tentatively June 1, 2021. Paramedic classes would end in March / April and first dates of testing is in May.
- Metrics for response time and level of service are underway with software.

### Personnel

- County is NOT willing to open Union contract.
- Employees to come over as new employees
- No Rank will follow with employees
- Pay is reflective of Paramedic pay for county but will be the same pay as current. (No additional stipend or step would be given for years of service).
- Seniority and accrual for those staff would not be given.
- All transferring staff would be under the 1-year probationary status as with all employees as well as probationary term for paramedics of 3 months, as a new hire.
- Transferees must have paramedic certification or pending completion, no EMT's would be considered or hired, regardless of proposed pay and additional educational funding.
- Employees would be given option for pensions.
- There is a question as to how many are going to the County. I have asked if a letter of intent would be allowable by the union and if so, the number of firefighters that would go. County has additional information on employees as per the sheet attached.
